ESI TECHNOLOGIES AMONG THE 20 MOST PROMISING CISCO SOLUTION PROVIDERS OF 2017

ESI is one of the 20 companies at the forefront of implementing Cisco solutions that impact the marketplace

Montréal, Québec, June 29, 2017 – ESI Information Technologies, announced today that CIOReview Magazine has named ESI Information Technologies in its 2017 *20 Most Promising Cisco Solution Providers* list. This annual CIOReview ranking recognizes companies committed to providing their customers with the most advanced Cisco technologies.

CIOReview magazine offers its readers articles that focus on solutions from the best information technology manufacturers and specialized integrators who take advantage of them to maximize functionality for the benefit of businesses.

ESI Technologies has been a Cisco partner since 1998, and has always placed a premium on their solutions and encouraged the certifications of its specialists. Several recent customers successes have allowed ESI to demonstrate its expertise in Cisco solutions.

"*ESI has always contributed to meeting the challenges and business needs of its customers. We want the IT industry to serve better and adopt a business language to truly understand their clients challenges and offer the solutions they need*" said Patrick Naoum, Executive Vice President, Strategy, Alliances & Client Solutions from ESI Technologies. "*Our longstanding partnership with Cisco is a good example of our sustained engagement towards solutions that we consider among the best in the industry.*"

"*We work with Cisco on several joint opportunities on a regular basis with a lot of collaboration*" said Roger Courchesne, Director of Internetworking and Security Practice at ESI. "*Our team makes it a point of honor to perform business intelligence of solutions and new products released by Cisco to provide this information for the benefit of our customers.*"
